

The Patient Protection and Affordable Care Act (H.R. 3590)(ACA) IMPACT ON ALLIED HEALTH PROFESSIONALS

HOW DOES THE ACA CHANGE HEALTH CARE DELIVERY?

- More people will have health insurance
- More people eligible for Medicaid coverage
- More people with employer-based health insurance
- More people with private insurance (Individual Mandate)

HOW DO THE ALLIED HEALTH PROFESSIONS AID THESE CHANGES?

- Many Allied Health Professionals specialize in providing the services outlined and emphasized by the ACA.
- Allied Health Professionals can assist in efficiently serving the increased number of people who will be able to afford health care services.
- Allied Health Professionals are prepared to meet the changes in emphasis.
 - They have experience working in teams
 - They use valid and reliable outcome measures
 - They specialize in areas directly related to prevention, wellness, and management of chronic diseases
 - They work in out-patient, home health, and school-based settings

WHAT EDUCATION AND RESEARCH ASSISTANCE DO ALLIED HEALTH PROFESSIONALS NEED TO BE SUCCESSFUL?

- Many Workforce and Funding Initiatives do NOT currently include MOST Allied Health Professionals
- Health Care Workforce Initiatives that DO include some Allied Health Professionals:
 - Geriatric Career Incentive Awards (Section 5305)
 - School-Based Health Centers (Section 4101)
 - Allied Health Workforce Recruitment and Retention Program
 - Mid-Career Public and Allied Health Training Scholarships (Section 5206)
- Research funding should include Allied Health Professionals since they may increase quality/efficiency/effectiveness of service for a lower cost.

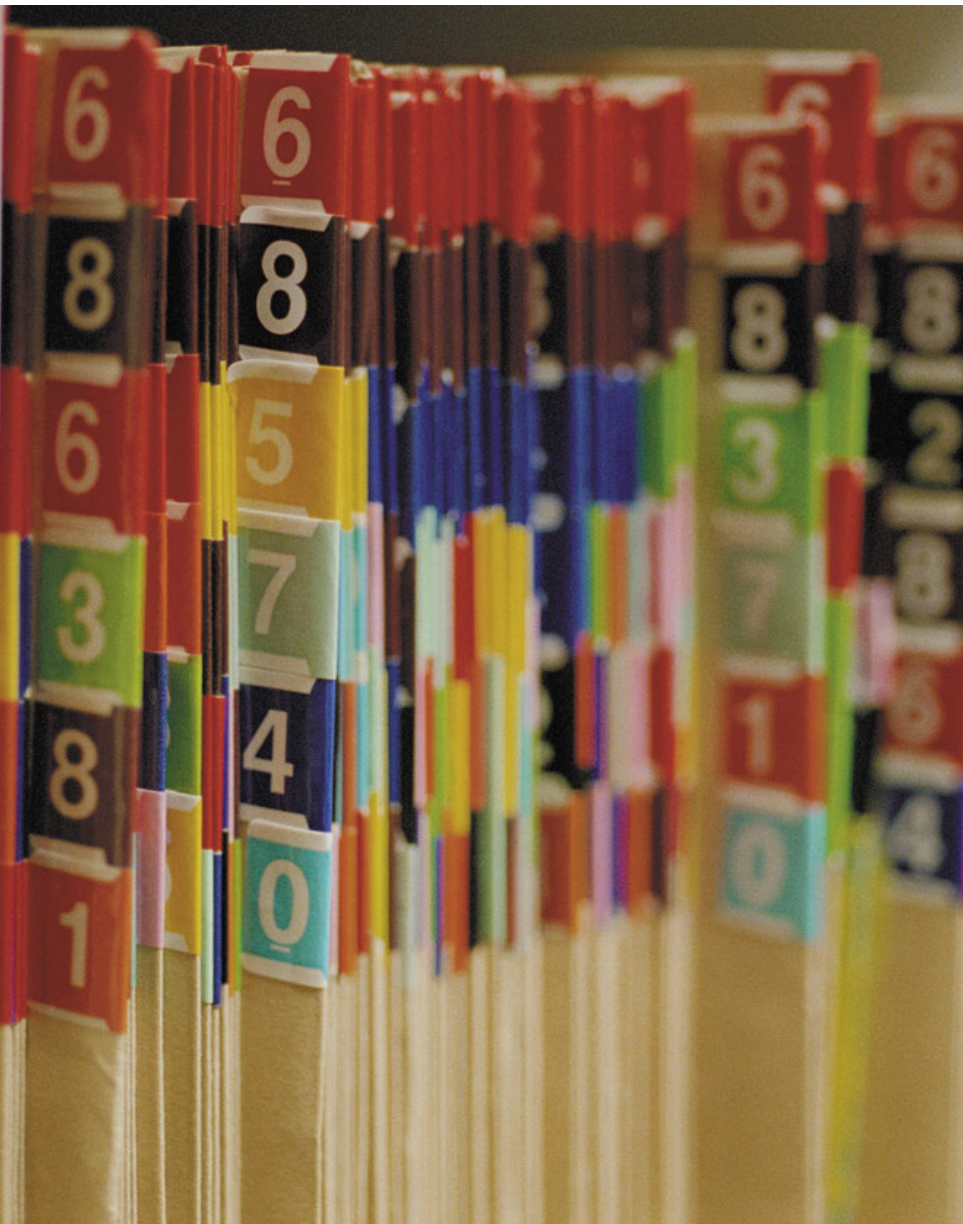

THE ASSOCIATION OF SCHOOLS OF ALLIED HEALTH PROFESSIONS (ASAHP)

The Association of Schools of Allied Health Professions (www.asahp.org) is the principal membership organization representing and promoting the schools and colleges of allied health. Its mission is to advance the professions of allied health and advocate for allied health programs in the United States and abroad.
